Template 2 – P[E]ACE – Ethic

The element **Ethic** can also be called values or principles.

It's anything here that influences or represents what influences our life in terms of what we base our behaviour, judgment or attitudes on.

It's also what gives us a personal sense of what's right and what's wrong.

So, you may already know what your ethic values and principles are or you may want to use the list.

Scan through the list and choose words that would represent what are your main ethic, or values and principles right now.

So for example, it could be accomplishment, compassion, justice, respect or status.

So you would simply fill that out in the column and once this is done, that you'd be ready to proceed with the last element of the list, which is **Purpose**.
